A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 181 and 185 are rejected under 35 U.S.C. 102(b) as being anticipated by Daberkó et al. (5,839,108).

As to claims 1, 2, 181 and 185, Daberkó teaches a method and apparatus for recording and playing back digital audio signal;

Wherein a digital voice data and a digital music data that is separately processed and recorded is separately played back/decoded by a decoder (Fig.3; Col.6, lines 55-60; Col.7, lines 49-48).

Allowable Subject Matter

Claims 182, 183, 184 and 186-189 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: the claims are allowable, because, Daberko doesn't teach where the voice data and the music data include spatial information and the first and the second adjustments as claimed.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
